Kothrud, Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Highly skilled and motivated React full-stack developer with 2.4 years of experience designing, developing, and deploying web applications. Strong background in frontend development with hands-on contributions to AI-driven fintech, healthcare, retail, banking, and e-commerce domains. Committed to delivering high-quality, scalable, and user-centric solutions while tackling complex challenges and driving innovation in web development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Redux, Context API, Tailwind CSS, Bootstrap, Responsive Design, Ajax, Figma
Backend: Node.js, Express.js, RESTful API, Middleware, API Design, Async/Await
Database: MongoDB, Firebase
Tools & Technologies: Git, GitHub, VS Code, Postman, Stripe Payment Integration, Shopify API
Practices: Agile Development, Responsive Design, Debugging, Deployment, SEO Optimization, Cross-Browser Testing

PROFESSIONAL EXPERIENCE

Frontend Developer (React.js Full-Stack Developer)
Codaemon Softwares Private Limited

Sept 2023 – Present
Pune, Maharashtra, India

- Architected 3+ full-stack web applications serving users across healthcare, e-commerce, and civic engagement domains utilizing MERN stack (React.js, Node.js, Express.js, MongoDB)
- Engineered responsive and user-friendly UI components with React.js and Tailwind CSS, achieving 95%+ cross-browser compatibility across Chrome, Firefox, Safari, and Edge
- Integrated Stripe payment gateway for secure transaction processing with PCI-compliant flows and webhook verification mechanisms
- Collaborated with backend teams to retrieve and display dynamic content through Shopify API and RESTful API integration
- Optimized application performance through code splitting and image compression, enhancing user experience across multiple devices (desktop, tablet, mobile)
- Designed RESTful APIs to manage user authentication, order workflows, and database interactions with JWT authorization
- Conducted rigorous UI testing and SEO optimization, ensuring seamless performance, visual consistency, and improved search visibility
- Partnered with cross-functional teams leveraging Git workflows and version control tools for efficient collaboration

KEY PROJECTS

Smeltt Online Store (Healthcare & Lifestyle Domain) | *React.js, Tailwind CSS, Shopify API* 2024

- Developed frontend for Smeltt's e-commerce website featuring India's first natural essential oil toilet spray
- Constructed responsive interface aligned with brand identity, implementing product listings, shopping cart, and checkout pages
- Enhanced SEO-friendly structure, ensuring smooth navigation and cross-browser optimization

Village Community Platform | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS* 2024

- Created comprehensive civic engagement platform enabling residents to report local issues, track resolution progress, and connect with political representatives
- Established centralized digital hub for village governance, community engagement, and transparent issue resolution
- Built issue reporting system with categorization, geolocation tagging, detailed descriptions, and photo evidence capabilities
- Crafted interactive village map visualizing issues geographically with color-coded status markers and advanced filtering options
- Assembled political representatives directory featuring comprehensive profiles of MLAs, MPs, Sarpanch, and local leaders with contact information
- Configured real-time status tracking with issue lifecycle orchestration (Pending → In Progress → Resolved)

Full-Stack Food Delivery Website | *React.js, Node.js, Express.js, MongoDB, Stripe API*

2023

- Spearheaded comprehensive food delivery platform allowing users to browse menus, place orders, and complete payments seamlessly
- Deployed Context API for state orchestration across application, managing shopping cart functionality and user authentication
- Formulated RESTful API handling user verification, order workflows, and MongoDB database interactions
- Incorporated Stripe for secure and efficient payment processing during checkout, ensuring safe handling of financial data
- Accelerated application load times and streamlined navigation, resulting in enhanced user experience
- Published production application on Vercel, achieving scalability for future enhancements like real-time order tracking
- Live Demo: hoteltomatoservices.vercel.app

EDUCATION

KIT's College of Engineering, Kolhapur

Bachelor of Engineering in Mechanical Engineering; CGPA: 7.28/10

Kolhapur, India

Aug 2019 – Apr 2023

CERTIFICATIONS & ACHIEVEMENTS

- MERN Stack Web Development Course – Apna College
- Resolved 100+ coding problems on LeetCode, strengthening problem-solving and algorithmic thinking abilities
- Responsive Web Design Certification – freeCodeCamp.org
- Quick learner adaptable to emerging frameworks and technologies with strong debugging expertise in React and JavaScript
- Demonstrated effective team collaboration utilizing Git and version control methodologies
